This deed of agreement is made in the form of agreement on _____ day _____ month _____ 20____, between the _____ (Employer) or his authorized representative (hereinafter referred to as the first party) and _____ (Name of the Contractor), S/O _____ resident of _____ (hereinafter referred to as the second party), to execute the work of construction of _____ (hereinafter referred to as works) on the following terms and conditions.

2. Contract Price

The total Contract Price for the works (hereinafter referred to as the “total price”) is Rs. _____ as reflected in Annexure - 1.

3.1 Payments under its contract:

Payments to the second party for the construction work will be released by the first party in the following manner:-

--	--

On signing of agreement	:	₹ <u>Nil</u>
On Running bill	:	<u>work completed up to superstructure, 80% of the work done</u>
Final Bill	:	Work completed in all respects, 100% of work done.

3.2 Payments at each stage will be made by the first party:

(a) on the second party submitting an invoice for an equivalent amount or as specified above para 3.1;

(b) on certification of the invoice (except for the first installment) by the engineer nominated by the first party with respect to quality/quantity of works executed in the format in Annexure - 2; and

(c) Payments shall be adjusted for deductions for advance payments, recoveries if any in terms of the contract, and taxes at source, as applicable under the law.

- (d) No advance payment will be made to the contractor. However, Contractor shall be paid 80% of the work done amount on running bill and 20% amount shall be paid after successful completion of the awarded work

4. **Notice by Contractor to the Project Staff**

The second party, on the works reaching each stage of construction, issue a notice to the first party or the Engineer nominated by the first party (who is responsible for supervising the contractor, administering the contract, certifying the payments due to the contractor, issuing and valuing variations to the contract, awarding extensions of time etc.), to visit the site for certification of stage completion. Within 15 days of the receipt of such notice, the first party or the engineer nominated by it, will ensure issue of stage completion certificate after due verification.

5. **Completion time**

The works should be completed in _____ (months/weeks/days) from the date of this Agreement. In exceptional circumstances, the time period stated in this clause may be extended in writing by mutual consent of both the parties.

6. If any of the compensation events mentioned below would prevent the work being completed by the intended completion date, the first party will decide on the intended completion date being extended by a suitable period:
- a) The first party does not give access to the site or a part thereof by the agreed period.
 - b) The first party orders a delay or does not issue completed drawings, specifications or instructions for execution of the work on time.
 - c) Ground conditions are substantially more adverse than could reasonably have been assumed before issue of letter of acceptance and from information provided to second party or from visual inspection of the site.
 - d) Payments due to the second party are delayed without reason.
 - e) Certification for stage completion of the work is delayed unreasonably.
7. Any willful delay on the part of the second party in completing the construction within the stipulated period will render him liable to pay liquidated damages. @ Rs. * _____ per day which will be deducted from payments due to him. The first party may cancel the contract and take recourse to such other action as deemed appropriate once the total amount of liquidated damages exceeds 3 % of the contract amount. [Or as per para 10.2 m of Instruction to bidders](#)

(Note: The amount of liquidated damages per day should be determined between 0.05 to 0.1% of the contract value of the works per day and indicated here).

8. Duties and responsibilities of the first party

- 8.1** The first party shall be responsible for providing regular and frequent supervision and guidance to the second party for carrying out the works as per specifications. This will include written guidelines and regular site visit of the authorized personnel of the first party, for checking quality of material and construction to ensure that it is as per the norms.
- 8.2** The first party shall supply 3 sets of drawings, specifications and guidelines to the second party for the proposed works.
- 8.3** Possession of the site will be handed over to the second party within 10 days of signing of the agreement.
- 8.4** The Engineer or such other person as may be authorized by the first party shall hold meeting once in a fortnight/month (*Choose one option*) where the second party or his representative at site will submit the latest information including progress report and difficulties if any, in the execution of the work. The whole team may jointly inspect the site on a particular day to take stock of activities.
- 8.5** The Engineer or such other person as may be authorized by the first party shall record his observations/instructions at the time of his site visit in a site register maintained by the second party. The second party will carry out the instructions and promptly rectify any deviations pointed out by the engineer. If the deviations are not rectified, within the time specified in the Engineer's notice, the first party as well as the engineer nominated by it, may instruct stoppage or suspension of the construction. It shall thereupon be open to the first party or the engineer to have the deviations rectified at the cost of the second party.

9. Duties and responsibilities of the second party

9.1 The second party shall:

- a) take up the works and arrange for its completion within the time period stipulated in Clause 5;
- b) employ suitable skilled persons to carry out the works;
- c) regularly supervise and monitor the progress of work;
- d) abide by the technical suggestions/direction of supervisory personnel including engineers etc. regarding building construction;
- e) be responsible for bringing any discrepancy to the notice of the representative of the first party and seek necessary clarification;
- f) ensure that the work is carried out in accordance with specifications, drawings and within the total of the contract amount without any cost escalation;

- g) keep the first party informed about the progress of work;
- h) be responsible for all security and watch and ward arrangements at site till handing over of the building to the first party; and
- i) Maintain necessary insurance against loss of materials/cash, etc. or workman disability compensation claims of the personnel deployed on the works as well as third party claims.
- j) Pay all duties, taxes and other levies payable by construction agencies as per law under the contract (First party will effect deduction (TDS) from running bills in respect of such taxes as may be imposed under the law).
- k. The contractor / bidder shall pay the minimum wages to the labourers and also shall comply the provisions of all applicable labour laws or as may be notified/amended by the State Government from time to time and he/she shall be bound to abide by the Industrial Dispute Act 1947 and other labour/ welfare laws enacted from time to time by GOI/GHP.

In case any grievance on this account is brought to the notice of the undersigned, the contractor shall have to settle the issue before the next bill is cleared by the undersigned or u/s shall have the right to deducted equal amount from the bill/payment of the contractor and if the dispute is not settled even after elapse of 30 days from the date of payment of the remaining amount of the bill if any, the withheld amount of the contractor shall be paid to the concerned labourer(s). In case the labour claims any kind of benefit(s) under any act/rules of central/state Govt., the contractor shall have to settle the issue at his level.

10. Variations / Extra Items

The works shall be carried out by the second party in accordance with the approved drawings and specifications. However, if, on account of site conditions or any other factors, variations are considered necessary, the following procedure shall be followed:-

- a) The second party shall provide the Engineer or such other person as may be authorized by the first party with a quotation for carrying out the Variation when requested to do so by the Engineer or such other person as may be authorized by the first party. The Engineer shall assess the quotation, which shall be given within seven days of the request before the Variation is ordered.
- b) If the quotation given by the second party is unreasonable, the Engineer or such other person as may be authorized by the first party may order the Variation and make a change to the Contract Price which shall be based on Engineer's own forecast of the effects of the Variation on the Contractor's costs.
- c) The second party shall not be entitled to additional payment for costs which could have been avoided by giving early warning.

11. Securities

The Performance Security (FDR or TDR from a Nationalized or Scheduled Bank in India in the format attached) shall be provided to the Employer no later than the date specified in the Letter of Acceptance and shall be issued in an amount and form and by a bank or surety acceptable to the Employer *The performance Security will be released after completion of 1st rainy season or six months from the date of completion of work whichever is later and after due verification/ recommendation by the concerned officials*

12. Termination

- 12.1 The Employer may terminate the Contract if the other party causes a fundamental breach of the Contract.
- 12.2 Fundamental breaches of Contract include, but shall not be limited to the following:
- (a) the contractor stops work for 28 days and the stoppage has not been authorized by the Engineer;
 - (b) the Contractor has become bankrupt or goes into liquidation other than for a reconstruction or amalgamation;

Environmental and Social Guidelines

1. To address immediate soil erosion risk arising from construction, soil conservation measures (embankments, retaining structures, etc.) around the planned area will need to be conducted.
2. Plastic waste should not be burned.
3. Construction waste should be disposed properly, away from the site, or at a collection centre. Construction waste may also be re-purposed.
4. While conducting construction work on drainage lines, stones shall not be removed from water channels, and will be sourced from appropriate places.
5. Original stream/ channel beds should not be disturbed.
6. While renovating bauris or wells, proper care will need to be taken to ensure original sources of water are not disturbed.
7. Fencing of water impounding structures close to habitation is mandatory.
8. While constructing primary water harvesting structures, stairs, ramps, or any other feasible measures for animals to easily access water will need to be provided.
9. In perennial streams with fish or other aquatic species, care should be taken to ensure drainage line treatment structures include measures to allow free movement of aquatic life.
10. Structures being built under IDP will need to factor in natural hazards and extreme weather events (flash floods, etc.).
11. When construction activities require movement of heavy vehicles and equipment, proper work safety measures for workers and people of the community should be followed – appropriate signs (falling rocks, construction ahead, etc.), personal safety equipment for workers (hard hats, etc.) should be provided.
12. Use of child (the Child Labour Act, 1986 identifies the child as an individual that has not completed 14 years if age), bonded, and forced labour is prohibited. However, the age of employment for the project is 18 years, and if any contractor employs a person under the age of 18 years, the contract will be terminated.
13. Contractors are expected to promote the use of local labour.
14. It is the duty of the contractor to pay equal remuneration to men and women for same work or work of a similar nature.
15. To avoid work related accidents and injuries, the contractor will:
 - a. Periodically train working staff on workplace safety.
 - b. Provide protective masks, helmets, overalls and safety shoes, and safety goggles, as appropriate.
 - c. Provide workers in high noise areas with earplugs or equipment to prevent auditory damage.
 - d. Ensure availability of a first aid box.
 - e. Provide employees with access to toilets and potable water.
 - f. Properly dispose of solid waste that is not being repurposed, at designated permitted sites allocated by local authorities and cleaning funds and attach the receipt of waste from the relevant landfill authority.
 - g. Carry out all procedures to prevent leakage of generator oil into the site.

- h. Ensure that the head of the well is covered tightly.
 - i. Provide secondary tank for oil and grease to avoid spills.
 - j. Provide ongoing health and safety supervision of worksites through use of relevant personnel.
16. Further to enforcing the compliance of environmental management, contractors will be responsible and liable for safety of site equipment, labourers and daily workers attending to the construction site, and safety of citizens for each work site, as mandatory measures.
17. It is mandatory for contractors to undergo training on labour management, applicable legal frameworks while handling labourers, and environmental and social safeguards.
18. In case traditional water harvesting structures (traditional community tanks, khattris, kuhals, etc.) are being renovated/ rejuvenated, or construction is taking place at or near sites of cultural significance (temples, site of religious significance, etc.) following activities need to be conducted:
- a. Contractors must undergo mandatory training on how to deal with sites that have cultural significance and ensure there is supervision from their side for the management of such sites.
 - b. All traditional sites or physical cultural resources (PCR) are to be restored to their original shape after constructions (before picture are required to be taken to ensure that the site is not disturbed after the intervention).
 - c. Identification of most appropriate time to undertake construction to minimise disturbance, e.g. avoid any special prayers / festivals for constructing in the vicinity of the PCR or on its access route.
 - d. Avoid keep power backup systems such as generators near the PCR.
 - e. Identify appropriate sites for waste storage and disposal of any waste generated by construction/ renovation/ rejuvenation.
 - f. Identify appropriate sites for material storage.
19. Contractors are also required to be cognizant of any chance finds. The following chance find procedures are to be followed in case any artefacts or sites of cultural heritage are discovered by chance while undertaking excavation during construction activities. The steps in case of chance finds to be followed are:
- a. Immediately intimate project staff, who will begin the necessary chain of communication.
 - b. Stop all work and cordon off area and do not allow anybody access to the area, unless cleared by the District Magistrate or Commissioner as the case might be and the Archaeological Department.
